# Campaign structure and donor journey

Build one central Harvest Heart Hub that directs each supporter to a clearly named mission and its correct receiving organization. A mission selection must lead to the appropriate campaign; a checkout question alone must not be used as a substitute for payment routing.

| 3     | \$54          | \$7,200        |
| 4     | \$180         | \$18,000       |
| 5     | \$360         | \$36,000       |

### Personal giving

English: Choose a CHAI gift. Give once or monthly, in the amount that feels right for you. Each gift supports the mission you select.

Español: Elige una contribución CHAI. Contribuye una vez o cada mes, con el monto que sea adecuado para ti. Cada contribución apoya la misión que eliges.

Frequency labels: Give once / Contribución única; Give monthly / Contribución mensual. Recommended default: one-time giving, with an explicit donor selection for monthly giving. Show “per month / por mes” whenever monthly giving is selected.

### Corporate giving

English: Bring your organization's heart to the harvest. Choose a mission and one of seven corporate CHAI levels, beginning at \$1,800.

Español: Comparte el corazón de tu organización con la cosecha. Elige una misión y uno de los siete niveles corporativos CHAI, desde \$1,800.

Default corporate frequency: one-time. Arrange recurring institutional commitments separately when recipient and terms are defined. Confirm with BetterWorld how large gifts will be processed; show a contact option if an amount cannot be completed through the online form.

### Settings requested from BetterWorld

Configure the seven suggestions, optional custom amount, explicit frequency, campaign identity, recipient identity, language route and acknowledgment. If a native form cannot show all seven suggestions, propose an equivalent layout that preserves them without creating additional tiers.

Tier labels identify contribution amounts. They do not promise naming rights, advertising benefits, specific service quantities or guaranteed outcomes. The conference's \$180 / \$360 / \$540 sponsorship offers remain separate.

# Visual assets and implementation handoff

## Visual specification

Use the supplied navy-and-gold Harvest Heart Hub image as the primary visual. Preserve the cross, Star of David, globe heart and harvest imagery. Place all essential page text and buttons in native readable text outside the image so mobile visitors can read and act.

Suggested palette from the image: midnight navy #071D31, gold #DDB25F, warm ivory #F6E8CC. Use high-contrast text and visible button labels. Keep English and Spanish in clearly labeled blocks; avoid narrow side-by-side columns on phones.

Hero alt text: Gold globe shaped like a heart framed by wheat, with a cross and Star of David, presenting Harvest Heart Hub and La Cosecha Community Church as the global ministry home.

The supplied image says “Campaign pages in development.” Retain that status during preparation. Before live giving begins, replace that status text in a separate approved launch asset. Confirm the selected-platform attribution with the implementation team.

## Requested implementation sequence

| Build drafts            | BetterWorld implementer     | Hub layout, first three campaigns, bilingual copy and both ladders.                         |
| Review drafts           | Ken and recipient leads     | Correct recipient, purpose, artwork, amounts and acknowledgment.                            |
| Verify checkout         | Implementer and recipient   | Preview or supported test verifies one-time and monthly routes; no unsolicited live charge. |
| Prepare launch links    | Implementer                 | Public Hub URL, campaign URLs and supported form embed code.                                |
| Release and monitor     | Ken and campaign owners     | Share only activated missions; reconcile weekly during launch.                              |

Requested review window: October 5–9. Requested configuration and verification window: October 10–15. Intended introduction: Renew Your Vows, October 16–18, 2026, 10 AM–5 PM Eastern daily, free admission. These are proposed work windows, not a confirmed BetterWorld commitment. Introduce the program as in development if giving routes are not ready.

# Acceptance checks and source record

## Return package from the implementation team

Return the stable Hub URL; all active mission URLs; exact receiving organizations; screenshots or previews of English and Spanish pages; one-time and monthly settings; corporate processing pathway; approved receipt copy; donor export sample; recipient routing confirmation; and any form embed code supported for the planned placement.

## Launch acceptance checks

- Each mission button opens the matching campaign and names its verified recipient before checkout.
- Exactly seven personal and seven corporate suggestions appear; \$1,800 belongs to both ladders.
- Monthly frequency is explicit; one-time giving remains available; totals and optional charges are clear.
- Unready initiatives show information or contact buttons rather than active donation buttons.
- Mentor Ministry resources and all three conference days remain free; purchases follow separate pathways.
- English and Spanish copy is readable on a phone; essential text is not trapped inside the hero graphic.
- Thank-you messages, contact details, consent choice and actual donor exports match the approved campaign.
- The Hub URL and QR destination work; there are no invented URLs, recipient names or published goal amounts.
